"Individual we are one drop
Together we are an ocean"

It gives us immense joy and satisfaction to finally present our very own school magazine; "Gyanada".

Just like the gods and the asuras churned the ocean of milk to extract the nectar, we have tried to churn out creativity from the talent of our young students. The best thing about this issue is that it represents the creative side of MIS students to a fair degree something that we think we all need to connect with. It is a platform for the students to exhibit their work and contribute to the sharing of knowledge. So this time we have made an attempt to bring out the talent concealed within our student community.

We congratulate our teachers and students whose ceaseless efforts have gone into the making of the memories of the past year. It was a great pleasure to look after the work of putting together the ideas of all the contributors. We hope you enjoy reading this issue as much as we have enjoyed making it.

We extend our gratitude to our board of governors, our respected Principal, teachers, students and enthusiastic parents for contributing immensely to help us in the compilation of this book of achievements.

Message...

It's a matter of pride for me to pen down the message for our annual school magazine 'Gyanada 2015-16'. My heart fills with immense pleasure as I perceive the progress being made at MIS.

The opportunity to shape the minds and lives of young children and providing them with means of attaining knowledge is divine blessing and we are fortunate to have been ordained with it.

I appreciate the principal, staff, all the students and the editorial team for their hard work to bring out this issue successfully.

Dhulichand Mittal
Chairman
Mittal International School

Message...

At the outset of the publication of 'Gyanada 2015-16' my heart exhilarates with thanks giving to all who have worked for it.

Each issue of our school magazine is a milestone that marks our growth, unfolds our imaginations and gives life to our thoughts and aspirations. It unleashes a wide spectrum of creative skills ranging from writing to editing and even in designing the magazine.

Our school fundamentally believes in its tradition of innovation and in its rigorous, well balanced system, highly attuned to the needs, goals and aspirations of its students. A place of learning one can rely on, for it provides the quality education.

Anju Agarwal
Vice Chairperson
Mittal International School

Message...

It makes me feel proud and pleased that Mittal International School is presenting the fourth edition of 'Gyanada'.

At Mittal International School, the uniqueness of each child is recognised, nurtured and treasured. It is way to sow the seeds of change and development in the minds of the youngsters, who are always open to the world. Educational institutes have an integral part to play here. Mittal International School remains as a small niche from where values of life are imparted to the students. Aiming at the holistic development of the student we provide them ample opportunities to mould their own personalities. We create a successful present while aiming for a brilliant future. I am grateful to the principal, staff, parents, well-wishers and all those who work behind the scene for the welfare of this school and its achievements. Congratulations and God's bountiful blessings.

Message...

It has been yet another incredible year for Mittal International School and it fills me with immense pride and pleasure to have witnessed the outstanding performance and the creativity of our students in the year 2015-16.

The school's achievements from its inception to fruition and till today has been exemplary and extremely gratifying, I pray that god, in his divine benevolence, continue to lead and guide this prestigious school for generations to come. It is my prayer that our school may become a beacon of hope, guidance and glory to all who pass through its hall of learning.

With sincere and warm regards.

Staff Picnic

A staff picnic to Jawahar Sagar Dam was organised on 25th July so as to refresh our teachers with new energy for the upcoming session.

Workshop for teachers

Levin & Ammon suggest, "That the process of becoming a teacher does not cease at the end of formal training but continues into the induction year and beyond." Every teacher need to be guided throughout her career on

different issues arising from time to time.

In educational setting, we need to empower teachers which corresponds to her behaviour directed towards her students, her colleagues & to the whole school.

Keeping this in mind MIS conducts regular workshops & orientation programs on personality development, a happiness program, class room management, graphology & seminar on Attitudes & values for their staff so as to equip them with the latest tools & techniques so that they perform all their tasks and responsibilities with exemplary commitment and exuberance.

I conclude with a few lines of a poem by Brewer, which talks about the paradoxes of being a "Servant-Leader", quite relevant in the context of school leadership.

Strong enough to be weak Successful enough to fail
 Busy enough to make time
 Wise enough to say "I don't know"
 Right enough to say "I'm wrong" Important enough to be last
 Planned enough to be spontaneous
 Controlled enough to be flexible
 Knowledgeable enough to ask questions
 And Leading enough to serve, (with love).

A small step towards a great leap

if you learn to think big,
nothing on earth will keep you from being successful.

Success is not a matter of luck. It depends on firm determination and full preparation, no man can hope to have a very easy life and also at the same time a very successful one. It is astonishing that intelligent efforts can achieve anything when channelised in the right direction. Each time we overcome an obstacle the work we are attempting becomes easier. The mantra of a true life is “arise, awake and never stop till the goal is reached”

Psychologists say that if we love our work, we will never find it hard or difficult. There is no substitute for hard work; at the same time there should be a purpose and a noble goal to aim at. We should work constantly to fulfill our ambition. Fortune also favours the brave. There is no gain without pain. How can a man who never ventures, win?

The most important thing to become successful is utilising time gainfully. The wise people say that time is money, time is very precious, it has wings, it waits for none, one must seize it with both hands, make the best of the opportunity, and time once gone is gone for ever. Then it belongs to ages. Make the best of the opportunity. We have got one life to live, so live it very beautifully. Make use of every moment of this mortal life. We are not blessed with hundred lives. Maximum good things to be done in the minimum period. Good deeds of mercy, charity, kindness and sympathy to be performed at the earliest. We may not get a second chance. There is no substitute to hard work, time, intelligence and determination.

“we are born to succeed and we should never give up”

Learning to reform and transform,

“ Anyone who stops learning is old;
Whether at twenty or eighty,
Anyone who keeps learning ,
Stays young. ”

Henry Ford

The modern environment and educational facilities surely enable the teenager to probe the mysteries of the world all on his own, however I strongly feel that some kind of guidance is necessary for their young & impressionable minds. The world consists of both good and bad things and teenagers are not in a position to differentiate between the grey areas amidst good and bad. It is true that modern technology offers a variety of opportunities for all age groups in all the fields of knowledge and everything is accessible at the click of a button. But one click on the wrong button, one could get access to harmful information. Therefore, one needs some kind of control over the kind of freedom a teenager enjoys. Too much curiosity can lead to added confusion and even chaos.

Some kind of parental guidance and supervision should be exercised on teenagers regarding the type of movies to be watched, the books to be read, friends to have etc. Some of us may strongly protest as to why can't we be on our own and enjoy life. There is a French Proverb “Learning is the eye of the mind”. But the truth is that the parents' guidance to a certain extent is essential. Therefore I think that while creative urges and the inquisitiveness of teenagers about the goings-on in the world should not be suppressed, teenagers on their part should not insist on complete freedom to make their choices in life.

Value of time

Time is most powerful and precious thing than other things in life even from money in this world. Once a precious time goes, it goes forever and never comes back as it runs only in the forward direction and not in the backward direction. It is very true that if one person does not understand the value of time, time also never understands the value of that person. It is true that "time and tide waits for none". At a moment, time gives only one chance, if we lost it once, can never get back. It is a powerful thing within which things are born, grow, decay or die. It has not any limitation and boundation so it moves continuously at its own pace. No one of us has command over time at any stage of life. Neither it can be analyzed nor criticized. Generally everyone becomes conscious about value and importance of time however many of us lose patience during bad situations of life and start wasting time. Time never stops for anybody and never shows kindness to anyone.

It is said that time is money however I think that we cannot compare time with money as once money lost can be earned by any means however once time lost can never be earned by any means. Time is more than money and other precious things in the universe. The ever changing time shows the unique property of nature that "Change is the law of nature". People think that how long the life is, however the truth is that the life is too short and we have so much things to do in our life. We should use every moment of our life properly and meaningfully without wasting time.

Our daily routine schedule such as school works, home tasks, hours of sleep, waking time, exercise, eating, etc should be well planned and organized according to the time. We should understand the value of time and use it accordingly in constructive manner so that we can be blessed with time not destroyed with time.

The value of Enrichment in children

A common goal for both education and recreation is to enhance the lives of people of all ages. Through recreation individuals can find the motivation to lead a productive life. Enrichment activities can help students generate patterns for creative proficiency, build good character, initiate an engaged mode for learning, and find purpose in life. Enrichment activities generate patterns for creative proficiency. The achievement goal theory is one of the popular approaches to understand what motivates a person. It refers to how students respond or react to an experience and how they achieve goals. These are two significant goal types : task involved and ego-involved.

When students learn to motivate themselves, discipline their minds, work hard, create and implement their study plans, and seek help when needed, they will be well equipped not only for the challenges in college but for success in future endeavours. Two essential aspects of motivation are the viewpoints about how good one is and how much value one sees in the activity. When individuals feel they can do something well, they invest more effort, energy, and time into their tasks. In the same way, when people feel the activity things value to them, whether the value is in its interest, importance, usefulness, or enjoyment, they persist beyond distraction, difficulties, or obstacles. The challenge for educators is not only to grasp their students attention but see them take initiative. Our educational system focuses on developing knowledge, skills, and creative talents but what about the more fundamental dimension of educating students to grow their empathy, spirituality, and desire to be good. One of my goals for providing enrichment activities is to balance the emphasis of professional abilities with good character traits and moral standards of influence and responsibility. Enrichment activities can be anything from service projects to walks in nature, sports to book reading, hands on projects to research papers, or even wholesome video games or work experience. Enrichment activities can be a vehicle to teach the attitude and habits required to do well in other subjects and other areas of life.

Creative ways of learning

As educators in modern (rather postmodern) period we always emphasize at introducing creative ways of learning to our students. We try to amalgamate traditional forms of learning and new innovative ways of understanding in a manner that we 'facilitate' their gain of knowledge so that our students become self-reliant. I believe that this approach can change our circumstances and what and how the students do affect their future. We often talk about unemployment and related problems but we hardly discuss with our kids the abundant possibilities that await for them. Our lives are full of opportunities to become self-reliant, and we should be encouraged to go out and make our marks on the world.

How is education helping our students to be ready for their future? There has been a lot of discussion in the last few years about the traditional system of education and whether or not it is doing the job our future needs. The systems in place are not changing as fast as the world around us but innovations are emerging which show great promise. A good example is Sugata Mitra, winner of the TED Prize in Education. He conducted an experiment by leaving a computer accessible to a population of children living in extreme poverty in India. Without any instruction at all they figures out how to use it. They learned English, searched through many websites on their own and then taught other children. They demonstrated a very powerful human trait, when confronted with a problem, to 'just forget it out'.

We need our future generation out there questioning and learning and pushing the boundaries. Ideal program according to me is to create an individual learning plan for each student that blends traditional instruction, self guided study and collaboration with other students and seeing if we could relate or put everything into practice. I always emphasize that leadership and community involvement are as important as other subjects taught in the school. In a world that is changing so fast many of us hardly recognize it, the greatest gift we can give to the future is a self-reliant population who is equipped to learn and grow with their fast paced environment.

Investiture Ceremony

Kohinoors of MIS

Being head boy is a dream every child owes. When I was young, I used to see my seniors proudly wearing the badges and satchels and confidently addressing the school, I also dreamt to be like them. Here I am today addressing my school as we bid adieu to the 'golden school days' to face life and its obstacles head on. I with utmost gratitude & respect would like to thank Principal Mam for covering this dream into reality for me.

We are obliged to the unconditional love our teachers have showered upon us to make us what we are today. On behalf of my cabinet, I would like to take the opportunity to sincerely thank all our teachers & the school. Being head boy is an amazing feeling, but being 'elected' leads this feeling to another level. And how can I forget thank my fellow classmates for voting & thanking that I am capable bearing this responsibility on my shoulders. No matter what we become or what we do in life, we will always know that this institution has been instrumental in shaping our lives.

I am profoundly grateful to the management, staff and students of Mittal International School for giving me the once-in-a-lifetime opportunity of serving as the Senior Kohinoor of the esteemed institution for the academic session 2015-2016. It has been a task of immense pleasure to impart my leadership to a host of talented students under the guidance of most cooperative and knowledgeable teachers. I wish good luck to all my ingenious and adroit juniors and may the flag of the institution rise high in the sky.

It was a great honour for me to be the junior Kohinoor of the school. I thank principal maam and entire faculty for giving me such a great opportunity to serve the school as Junior Kohinoor. I promised that I will work hard to make MIS better learning experience.

I am feeling very proud and happy to be the Junior Kohinoor of Mittal International School. I would like to thank all the teachers, principal maam and my friends for supporting me and I'll work hard and try my best to make our school more successful.

Florentine RED

Red is the colour of extremes, fire, blood, so we associated us with energy, strength, power, determination, passion and love. The students of Florentine red have shown their potential by proving victories in various fields – like first prizes in (i) Brics Summit Event (ii) English Debate (iii) Nukkad Natak held on 26th January (iv) Won Prizes in Sports Day (v) Quiz competition etc.

Dresden GREEN

Green colour symbolizes prosperity and well being. It is considered the colour of nature and life. Co-curricular activities are an integral part of developing the skills and talent of our children. They form the core of students' life. It develops the all round personality of the student to face the undaunted task. The students of Dresden Green House have shown their potential and creativity by proving victorious.

“Doing the best at this moment puts you in the best place for the next moment”.

GOLDEN Pelican

Colour yellow is full of creative and intellectual energy. This is in yellow colour which symbolises happiness and love. All the positive full flowing energy of yellow colour was flowing in each and every house student and moulding their dormant talent. With healthy competitive attitude the primary golden pelican student won the first Prize for the Ram Leela Competition. They also proved their sports mantle by winning many sports trophies with good co-ordination among house teachers and house students. They have shown their potential and creativity in various fields.

BLUE Maharaja

The blue colour of the sky is Perceived as a source of inspiration in our lives. Success is not final. Failure is not fatal, It is the courage to continue that distinguishes Blue Maharaja from others. Our students have thus proved their caliber in quiz, sports and other cultural activities.

Kindergarten

Message from the Kindergarten

"Our tiny toddlers are like wet cement, whatever falls on them makes an impression." Children are natural learners. They have great curiosity, enthusiasm and originality. We like to respect and encourage their individual and natural style of learning such as:

- Senses
- Language
- Moving
- Repetition
- Praise And Encouragement
- Interacting With Others
- Exploring And Experimenting

With that in mind, we create a secure and comfortable environment where children can explore creativity, freely with a well balanced curriculum, we provide through these various experiences, children gain great curiosity and concentration, which builds self esteem and a positive attitude.

Each day begins with the prayer, the first few minutes being dedicated towards moral values as we additionally focus developing students in a holistic way instilling in them moral education and strong work ethics so that they grow up to be good citizens and assets to our nation .

Kindergarten is an exciting and important time in your child's development and growth. You can play an important role in his wonderful journey.

MIS SERMONIC

Mittal International school felt privileged as MIS got an opportunity to visit Agriculture university and their office at Borkheda and Umed Ganj farm. Grades 8-10 visited the university, at KVK, Borkheda- Vermicomposting, dairy science, organic farming, nursery and Umed Ganj farm-Agriculture Sciences. Students visited the farm and learnt about the new methods of agricultural farming.

" Learning never exhausts the mind"

One can think of healthy mind only in a healthy body. Both physical and mental well-being are prerequisites of great achievements in human's life. Sports are the sources of recreation. They provide relief and sense of relaxation in monotonous life.

Sports and games impart a sense of discipline, fellow-feeling and togetherness. They are the right avenues to channelize the energy and vitality of students and make their leisure hours worthwhile. They provide stimulation for study and for hard work.

It is not the sound and the fury that counts but efforts in the right direction to make a mark. Keeping this in view, it is high time that we spot out our talented students and provide all necessary facilities to train them properly so as to enable them compete with world champions with no feelings of indifference.

arts alive

Art is beauty translated on the canvas. It is a veritable feast for eyes and instinct the stroke of brush & the blend of colours in the canvas creates life on a piece of paper. The ocean of ideas in an artist when put out in forum of art, gives serenity to all the hearts.

Art knows no boundaries, it is limitless and makes you dream larger than life. All of us have a little artist hidden in us, we need to feed it with effort and never-ending determination.

MIS

The school encourages and trains them to take part in various dance competitions Enabling them to have more confidence and style in themselves.

DANCE
IS THE CONVER
SATION BETWEEN
THE BODY &
SOUL

Dynamic Dance Zone

"Dance is the conversation
between the body and soul"

Mrs. Anjana Sharma
Dance Teacher

I am thankful for the opportunity to pass on my passion for the art of dance. Dance develops creative thinking skills and inculcates a sense of discipline, commitment and work ethic. Self-confidence develops as young people overcome challenges to master new goals, learning to apply themselves and accomplish any task put before them.

Dance teaches children about music, rhythm and beat. Students also have a better understanding of spatial relationships and learn to think with both sides of their brain. All these skills enhance a child's academic performance, as well as their physical well-being. Through dance, students learn teamwork, focus, and improvisational skills. Dance awakens new perceptions in children

which help them learn and think in new ways. Every child benefits from quality dance training. Dancers enter society with the ability to maintain the uncompromising high standards nurtured during their dance training.

All in all, dance is a great way to build invaluable social skills. Much more importantly however, it is an opportunity to teach your children the importance of being part of something larger than themselves. Dancers learn to take turns, to share attention, and to cooperate with others as they work within a group. Much like team sports, dance for children can teach some invaluable and important lessons.

Euphony

"Music helps the mind develop and grow."

It is a proven fact that participating in a music programme in school will help develop your brain to a higher level faster. Importance of music specially in today's humdrum life can not lie overstated. Music acts as a stimulant and soothes the 000000000. It is a fine art and groups of all ages get attracted to its sweet sound. It is the greatest form of art that allows a human to take boring notes on a page and transform them into an emotional feeling you cannot measure.

Research has found that learning music facilitates learning other subjects and enhance skills that children inevitably use in other areas. Children learn the basics of music at the school level. As the time grows, they will be great musicians later.

I got a new pet
Guess what is that ? a parrot
Its feathers are nice and green
Always glisten and gleam ?
Its hooked beak
Its always ready to speak ?
Chillies it loves to chew
But it is naughty too ,
It utters many words
Behaves as if beast of birds ,
At times, it speaks like a grown up ,
And I simply have to say shut up .

Prayer

I loved this
interpretation of prayer.
Prayer doesn't just happen
when we kneel or
put hands together
and focus and expect
things from god.
Thinking positive and
wishing good for
others is a prayer.

When you hug
a friend that's a prayer.
When you cook something
to nourish family and
friends that's a "prayer".
When we send off our near
and dear ones and say,
drive safely or be safe,
that's a prayer.

When you are helping someone
in need by giving your time and energy
'you are praying'.

Prayer is the voice of love,
friendship, genuine relationship.
prayer is an expression of
your silent being
Keep praying always
Have a nice day

Friendship

A friend is a person that someone likes or knows. People who are friend talk to each other and spend time together. They also help each other when they are in trouble or are hurt. Friends are people that can be looked up to and trusted. Sometimes people can't share their secrets with their parents so they can share it with their friends. Usually friends have similar interest. A friend is one who admires a person's skill and helps or encourages them to make the right choices and do not get into any trouble at all. If friendship don't match with your expectations, it does not mean you will break the friendship. It is all about understanding, realizing and helping whenever possible. Friendship is both good and necessary. Man cannot live all alone. He is a social being. He needs someone to share his joys and sorrows. Friends are needed for support and for sharing.

The bird who could not fly

Once upon a time there lived a pigeon. She made a nest on the branch of a tree. She laid three eggs. After some days the eggs hatched. Three chicks came out. Their mother used to give them worms to eat every day. After few weeks, the mother pigeon notices that only two chicks were growing big while the third one was still small. The mother named them Winky, Peter and Sammy.

The chicks loved playing hide and seek with each other. They all used to wait together for their mother to bring them food. Whenever they saw their mother bringing food they used to shout and say YIPPIE.... FOOD IS HERE!! Sometimes while playing they used to break their nest also.

Winky was different from Peter and Sammy as she could not fly. Peter and Sammy always used to tease Winky that she can never grow & become strong like the two of them. Mamma pigeon used to scold Peter & Sammy & tells Winky, my dear daughter you must try to fly every day. Winky tries to fly every night while Peter and Sammy were fast asleep. Mamma

pigeon also helped Winky to learn flying. Peter & Sammy still used to tease Winky about not being able to fly.

One afternoon when Mamma pigeon went out to get food, Peter & Sammy decided to play hide & seek. While playing they kept flying above the tree also. Suddenly Winky came out of nest & asked her brothers if she could also play with them. Peter & Sammy were surprised & they asked, "How can you fly Winky?" At this Winky smiled & said that while every night they were asleep, mother pigeon helped her to learn flying. Now tell me ... Will you Tease Me ...!! Ha Ha HaPeter & Sammy says No, No, No.

Moral of the story

Try try until you succeed

And it's all About Achieving

For achieving your goals you need to work smart. Smartness lies in doing things in a disciplined way and also in a perfect order. So the first step to achieve your goals is to write down all your sensible and accomplishable goals by listing them one below the other as the list in front of you will always help you to focus more precisely and realise your priorities.

Second develop different strategies to achieve goals. After listing down your goals now you need to plan for your priorities for an example your goal is to clean your almirah and arrange your stationery in a well mannered way. So for that your main focus would be on preparing charts, arranging pencil stands and cleaning your drawers so that you could arrange your book accordingly. You need your dedication to pull off your goals.

Third Believe in yourself. The truth is if you yourself won't believe your own soul than how could you expect the other to believe. Be confident and you will surely accomplish your goals. Fourth Be self motivated. This is a diesel to the tank of the car of your life whose destiny is to complete the goal. This helps you to stay focus and makes it easier to work towards your objective

Review your progress for sure!! Not a difficult one. You just need to review to analyze your progress and to check out how many more steps are left to complete our first journey is our first goal

If you think you are lacking behind ask yourself for help from your closest friend or family member even your teacher or your seniors any one you are comfortable with. Try to recognize why you are not able to accomplish your goal. Find a solution and work for it.

Punctuality

Good punctuality at school is essential for students to achieve their full educational potential. It is also vital for student to develop good habits for future. For me, It is an important part of self discipline and is essential to have good time management I fell proud to be recognized as a punctual student, who never misses any class and learns everything that his teacher's teaches. My school records proof of the fact that I have never missed school even for a single day throughout my student life so far and far this achievement. I have been recognized every year by the school management. I firmly believe that punctuality is the most important characteristic of all successful people. The student the teacher, the sportsmen, the politician the official and even the layman all have to observe punctuality in order to win glory and success in life for me also, punctuality implies maintain regularity in our daily schedule of work and is the gate- way to success.

एक अच्छे सम्य समाज के लिए संस्कार अत्यंत आवश्यक माने जाते हैं। संस्कार हमारे धार्मिक और सामाजिक जीवन की पहचान होते हैं। यह न केवल हमें समाज और राष्ट्र के अनुरूप चलना सिखाते हैं। बल्कि हमारे जीवन की दिशा भी तय करते हैं। भारतीय संस्कृति में मनुष्य को राष्ट्र समाज और जनजीवन के प्रति जिम्मेदार और कार्यकुशल बनाने के लिए जो नियम तय किए गए हैं, उन्हें ही संस्कार कहा गया है। हमारा कर्तव्य है कि हम अपने बच्चों को संस्कारित कर उनका उत्तम मार्गदर्शन करें, और बच्चों भी उन संस्कारों का दृढ़ता से निर्वहन करें।

हर बात की आजादी थी, बंदिश का कहीं नाम नहीं।
खुब मचाते धमाकौकड़ी, करते तनिक आराम नहीं।

लौटके आज प्यारे बचपन, याद बहुत आता है बचपन।
ना खाने में, ना सोने में, कोई रोक लगाता था।
पड़ जाती जो डांट कभी तो,
दादी के आँचल में हर बच्चा छिप जाता था।
नहीं भूलता प्यारा बचपन, याद बहुत आता है बचपन।

आ जाते जब त्योहारों के दिन, हर दिन उत्सव बन जाता था।
नहीं करेंगे कोई पढ़ाई, हर बच्चा ये धमकी दे जाता था।
खाते जमकर खूब मिठाई,
और नई पोशाकों में हर बच्चा इतराता था।
बड़ा हमें बनाकर पीछे छूट गया बचपन
याद बहुत आता है बचपन

बारिश की तो बात न पूछो, जबकर खूब नहाते थे।
अगले ही पल छीक-छीक कर, सारा घर सिर पर उठाते थे
थोड़ी डाँट और चपत लगाकर, मम्मी गुस्सा हो जाती थी।
पर दादी चुपके से आकर, पिला काढ़ा थपकी दे सुलाती थी।
नहीं भूलती प्यारी बातें, जब से बीत गया बचपन
याद बहुत आता है बचपन

“कला” विचारों की अभिव्यक्ति

“कला सत्य की अनुकृति है।” प्लेटो का यह कथन सर्वथा उचित है। कला के द्वारा हम अपने मन में उत्पन्न भावों, विचारों की अभिव्यक्ति कर सकते हैं। अपने भावों को इस तरह से अभिव्यक्त करना कि देखने वालों में भी वही भाव उत्पन्न हो जाए, वही कला है। कला का मानव के व्यक्तित्व, शारिरिक, मानसिक, भावात्मक, आर्थिक बौद्धिक, नैतिक व सांस्कृतिक और आत्म विकास आदि में महत्वपूर्ण योगदान है।

“ आलौकिक संध्या ”

जीवन की संध्या को हम आलौकिक कर लें
आओ मिलकर आसमान से तारे चुनले
कुछ तारे हो शान्तिपुंज, कुछ प्रेम पतंगे
कुछ को हम आँचल में भरलें, कुछ हम को भर लेंगे
कुछ हमको शुभ राह दिखाकर अपने हाथ पकड़ ले
आओ मिलकर आसमान से तारे चुन ले

दूरी से डरकर तुम मत अपना गंतव्य भुलाओ
चलने में उत्साह भरे, दृढ़ मंतव्य बनाओ
मंजिल उसकी राह देखती जो जीवन भर ले
आओ मिलकर आसमान से तारे चुन ले
राग सांझ का धीमे-धीमे उतर रहा हो
बंशी की धुन मीठी सुनकर तन-मन-मचल रहा हो
ऐसे में हम भी कुछ सुमधुर, भक्ति गीत गुने
आओ मिलकर आसमान से तारे चुन ले

गलत दिशा में तेज दौड़कर, विजयी कौन हुआ है?
उसके हाथ रहे खाली जो बालू पैल रहा है
संध्या ढलने से पहले हम सच्ची राह पकड़ लें
आओ मिलकर आसमान से तारे चुनले

पुस्तकें ज्ञान का भण्डार

‘पुस्तकालय’ शब्द दो शब्दों से मिलकर बना है, ‘पुस्तक + आलय’। इसका आशय है पुस्तकों का घर। ऐसा स्थान जहाँ अनेक पुस्तकों का भण्डार हो, पुस्तकालय कहलाता है। पुस्तकालय एक ऐसी संस्था है जहाँ अनेक विषयों की अनेक पुस्तकें उपलब्ध होती हैं, जिनका लाभ उठाया जा सकता है। जिस प्रकार शारीरिक स्वास्थ्य के लिए व्यायाम तथा संतुलित भोजन आवश्यक होता है वैसी ही मानसिक स्वास्थ्य के लिए ज्ञानार्जन आवश्यक है। ज्ञानार्जन पुस्तकों द्वारा प्राप्त किया जा सकता है। पुस्तकें हमारे ज्ञान का विस्तार करती हैं।

पुस्तकें हमारी मित्र होती हैं। वे अपना अमृतकोष सदा हम पर न्यौछावर करने को तैयार रहती हैं। पुस्तकें प्रेरणा की भण्डार होती हैं, उन्हें पढ़कर जीवन में कुछ महान कर्म करने की भावना जागती है। पुस्तकें ही आज की मान-सभ्यता के मूल में हैं। पुस्तकों के द्वारा एक पीढ़ी का ज्ञान दूसरी पीढ़ी तक पहुँचते – पहुँचते सारे युग में फैल जाता है।

तुलसी के ‘रामचरितमानस’ तथा व्यास रचित ‘महाभारत’ ने अपने युग को तथा आने वाली शताब्दियों को पूरी तरह प्रभावित किया है। पुस्तकें मान के मनोरंजन में भी परम सहायक सिद्ध होती हैं। मनुष्य अपने एकांत क्षण पुस्तकों के साथ गुजार सकता है।

पुस्तकों के बारे में कहा जाता है कि ‘पुस्तकें जाग्रत देवता हैं’। उनसे तत्काल वरदान प्राप्त किया जा सकता है। अमेरिका में वाशिंगटन कांग्रेस पुस्तकालय विश्व का सबसे बड़ा पुस्तकालय है, जिसमें चार करोड़ से भी अधिक पुस्तकों का संग्रह है। पुस्तकालय शोधकर्ताओं तथा उच्च अध्ययनशील व्यक्तियों के लिए वरदान है। पुस्तकालय में वहाँ के नियमों का पालन करना चाहिए। वहाँ ठीक से बैठना चाहिए तथा पुस्तकों पर कुछ लिखना नहीं चाहिए। पुस्तकालय ज्ञानार्जन, मनोरंजन तथा समय के सदुपयोग का बहुत बड़ा साधन है।

“सुनहरी यादों का सफर”

वो लम्हें जो हमारी जिन्दगी के अनमोल पल बन गए, वो लम्हें तो हमारे कल बन गए।
काश उन लम्हों को हम फिर से जी पाते, वो लम्हें जो हमारी नम आंखों के जल बन गए।।

इन पंक्तियों को लिखते वक्त मेरी आँखों में आँसू व दिल में दुःख है। यह पंक्तियाँ किसी और के लिए नहीं बल्कि अपने स्कूल के लिए हैं। जिसमें मैंने अपनी जिन्दगी के महत्वपूर्ण आठ साल गुजारे हैं। यह स्कूल मेरे लिए परिपक्वता का पर्याय बन चुका है। जिसे चाहकर भी मैं कभी नहीं भूल पाऊँगी। यहाँ पर उभरने वाली विविध परिस्थितियों ने मुझे इतना मजबूत व सुदृढ़ बना दिया है कि मैं अपनी आँगों की बची जिंदगी में किसी भी तरह की कोई भी समस्या से सफलतापूर्वक निपटने में पूरी तरह समर्थ हूँ। सर्वप्रथम मैं हृदय से आभारी हूँ अपने सभी शिक्षकों एवं अध्यापकों की जिन्होंने मुझे माता-पिता के समान प्यार दिया व मेरे जीवन लक्ष्य की प्राप्ति में मुझे पूर्ण सहयोग प्रदान किया। यहाँ का हर एक शिक्षक मेरे लिए प्रेरणा का स्रोत व अविस्मरणीय हैं।

न जानें सालों बाद कैसा समा होगा, हम सब दोस्तों में से कौन कहाँ होगा।

फिर अगर मिलना होगा तो मिलेंगे ख्वाबों में, जैसे सूखे गुलाब मिलते हैं किताबों में।।

यह पंक्तियाँ मैंने अपने हर उस मित्र के लिए लिखी हैं जिसके साथ मैंने स्कूल में एक-एक पल हमेशा एक नए जोश, नई उमंग व नयें उत्साह से बिताया हैं। मैं भगवान की शुक्र गुजार हूँ कि उन्होंने मुझे इतनी यादगार, सुनहरी व आनन्दपूर्ण जिंदगी जीने का मौका दिया।

“स्कूल के यादगार दिन”

बात तब कि है जब मैं कक्षा छठी में पढ़ता था एक दिन मैं अनुपस्थित था तो अगले दिन हिन्दी कक्षा परख की सूचना मुझे नहीं मिली। फिर दुसरे दिन जब मैं स्कूल गया तो हिन्दी कालांश में हमारी अध्यापिका ने 'टेस्ट कॉपी' निकालने को कहा और प्रश्न लिखने शुरू कर दिए वैसे पाठ तो मैंने पढ़ा था पर मेरा मन परख देने नहीं हो रहा था। फिर अध्यापिका परख कॉपी ले रही थी तो मेरी कॉपी न देखकर उन्होंने मुझसे पूछा तो मैंने कॉपी न लाने की बात कही तो उन्होंने टेस्ट पेपर माँगा तो मैंने फटा हुआ पेपर उन्हें दे दिया तो गुस्सा हो गई और मुझे प्रधानाचार्या के पास लें गई तो प्राचार्या जी ने पहले मुझे डाँटा, फिर सही कारण पूछा तो मैंने उन्हें बता दिया कि मुझे कुछ नहीं आ रहा था तो ऐसा किया, तब मेम ने मुझे शाबासी दी कि तुमने सच बोला इस बात से मुझे प्रसन्नता हुई और उन्होंने एक चॉकलेट सच बोलने के उपहार के रूप में दे दी। तभी से मैंने हमेशा सच बोलने की शपथ ले ली और अपने दोस्तों को भी सच बोलने की सीख दी।

“मेरा यादगार दिन”

यह मेरा सबसे ज्यादा यादगार दिन था जब मैं अपने दादाजी के साथ घूमने गई थी और उस समय रात हो रही थी। मैंने उनसे पूछा कि इस दुनिया में सफलता प्राप्त करने के लिए हम विधार्थी को क्या करना चाहिए? उन्होंने कहा-पहले परिश्रम क्योंकि जब तक यह नहीं होगा तब तक गाड़ी आगे नहीं बढ़ेगी। फिर दूसरा होता है चरित्र क्योंकि जब तक यह हमारे साथ है तब तक हमें कोई ताकत हमें आगे बढ़ने से रोक नहीं सकती। फिर तीसरा हमें हमेशा अपने दुसरों को देना चाहिए चाहे वह हमारा दुश्मन ही क्यों न हो। हमें कभी भी किसी के बारे में बुरा नहीं सोचना चाहिए और न ही करना चाहिए। मन के अंदर से आवाज़ और एक जूनून होना चाहिए कि मुझे समझ के आगे बढ़ना है। कभी भी घंमड नहीं करना है यही सबसे सरल और आसान काम है और अंत में कुछ ऐसा कह दिया जो मैं कभी भूल नहीं सकती- “सफलता के पीछे कभी मत भागो, कुछ ऐसा कर जाओ कि सफलता तुम्हारे पीछे भागे।” फिर तब से मैंने वो ही किया जो मुझको मेरे दादाजी ने समझाया।

तुम्हीं मिटाओ मेरी उलझन, कैसे कहूँ कि तुम कैसी हो?
कोई नहीं सृष्टि में तुम सा, माँ तुम बिल्कुल माँ जैसी हो।

ब्रह्मा तो केवल रचता है, तुम तो पालन भी करती हो
शिव हरते तो सब हर लेते, तुम चुन-चुन पीड़ा हरती हो
किसे सामने खड़ा करूँ मैं, और कहूँ फिर तुम ऐसी हो।।

मेरी लघु आकुलता से ही, कितनी व्याकुल हो जाती हो
मुझे तृप्त करने के सुख में, तुम भूखी ही सो जाती हो
सब जग बदला मैं भी बदला, तुम तो वैसी की वैसी हो।

तुम से तन-मन, जीवन पाया, तुमने ही चलना सिखलाया
पर देखी मेरी कृतघ्नता, काम तुम्हारे कभी न आया
क्यों करती हो क्षमा हमेशा, तुम भी तो जाने कैसी हो
माँ तुम बिल्कुल माँ जैसी हो।।

कितने मजे हमारे होते
बाँध तने में उसके रस्सी
चाहे जहाँ कहीं ले जाते,

जहाँ कहीं भी धूप सताती
उसके नीचे बैठ सुस्ताते,
जहाँ कहीं वर्षा हो जाती
उसके नीचे हम छिप जाते।

भूख सताती अगर अचानक
तोड़ मधुर फल उसके खाते,
आती कीचड़, बाढ़ कहीं तो
झट उसके ऊपर चढ़ जाते।

“हमें आगे बढ़ते जाना है”

हमें आगे बढ़ते जाना है, न थकना है, न रुकना है।
न मुश्किल से घबराना है,
तूफानों से लड़ते-लड़ते हमें, अपना मार्ग बनाना है।
चाहें राह में आए पर्वत भी, हमें पार उसे कर जाना है,।
मर जाना है, मिट जाना है, बस आगे बढ़ते जाना है।
जीवों में एक जीव चींटी है, जो अब तक कभी न हारी है।
हर बात जतन करते करते, आखिर मंजिल को पाती है।
फिर क्यों न हम भी जतन करें, नन्ही चींटी से शिक्षा लें।
उसके जैसे ही शिक्षा लिए, हमें आगे बढ़ते जाना है।

चींटियों की अजब दुनियां

1. दुनिया भर में चींटियों की 10,000 से अधिक प्रजातियाँ मौजूद हैं। इनका आकार। सेंटीमीटर से भी कम होता है।
2. सबसे बड़ी चींटी ‘कार्पेंटर’ चींटी कहलाती है। उसका शरीर करीब 2 सेंटीमीटर बड़ा होता है।
3. चींटियाँ सुन नहीं सकती क्योंकि उनके कान नहीं होते। ये ध्वनि को कम्पन्न से महसूस कर सकती हैं। आसपास की आवाजों को सुनने के लिए ये घुटने व पैरों में लगे खास संसर पर निर्भर करती हैं।
4. बरसात के दिनों में इनके पंख निकल आते हैं और बांबी से निकलते ही ये उड़ने लगती हैं।
5. एक चींटी अपने वजन से 20 गुना भार ढो सकती है।
6. चींटी का शरीर रानी चींटी के मुकाबले छोटा होता है। दूसरी चींटियों का काम खाना लाना, बच्चों की देख-रेख करना, घर बनाना होता है। वहीं रक्षक चींटियाँ घर की सुरक्षा करती हैं।
7. रानी चींटी सबसे बड़ी होती है। इसका काम अण्डे देना है यह हजारों अण्डे देती है।
8. चींटी के शरीर का एक महत्वपूर्ण हिस्सा उसकी गर्दन है। इसी से वह अपने मुँह में रखे वजन को उठा पाती है।

मेरा अर्न्तमन घायल है, दुख की गाठें खोल रहा हूँ।
मैं शक्ति का अमर गर्व हूँ, आजादी का विजय पर्व हूँ।
पहले राष्ट्रपति का गुण हूँ, बाबा भीमराव का मन हूँ।

कर्तव्यों का अभिनन्दन हूँ, लोकतंत्र का उद्बोधन हूँ।
अधिकारों का संबोधन हूँ, कानूनी लक्ष्मण रेखा हूँ।
मेरे वादे समता के हैं, दीन-दुखी से ममता के हैं।
मैं जबसे आजाद हुआ हूँ, और अधिक बर्बाद हुआ हूँ।

मैं ऊपर से हरा-भरा हूँ, पर संसद में सौ बार मरा हूँ।
मैंने तो समता सौंपी थी, तुमने फर्क व्यवस्था कर दी।
मैंने न्याय व्यवस्था दी थी, तुमने नर्क व्यवस्था कर दी।
न्याय व्यवस्था भी रोती है, गुण्डों के घर में सोती है।

मैं चोटिल हूँ, क्षत-विक्षत हूँ, मैंने यूँ आघात सहा है।
जिन्दा हूँ या मरा पड़ा हूँ, अपनी नब्ज टटोल रहा हूँ।
मैं भारत का संविधान हूँ, लाल किले से बोल रहा हूँ।

जो भी सत्ता में आता है, वो मेरी कसमें खाता है।
ये शासन की नाकामी है, पर मेरी तो बदनामी है।
मेरे पहरेदारों ने ही, पथ में बोये ऐसे कांटे।
जैसे कोई बेटा बूढ़ी माँ को मार गया हो चांटे।

मैं लहू में लथपथ होकर जन पथ पर डोल रहा हूँ।
शायद नया खून जागेगा, इसीलिए मैं खोल रहा हूँ।
मैं भारत का संविधान हूँ, लाल किले से बोल रहा हूँ।

Change yourself first to Change The World

Everyone thinks of changing the world but no one thinks of changing himself. It is possible to make a difference in the world perhaps to a small handful of the world's population by changing ourselves. I believe the easily adapted ways that help us to change ourself and change the world as a result are :

1. Practice forgiveness : All of the conflict in this world has been due to misunderstanding, lack of communication, fear of losing out, fear of being controlled and fear of

looking weak. by changing ourselves to be more forgiving, we could do a lot of good. Practice of forgiveness reduce the amount of conflict in the world.

2. Go one day without complaining : We all know of the world's problems global warming, terrorism, recessions etc. But what are we actually doing about it? For the majority of us all we do is complain.

The simple fact is that complain will get us nowhere. Complain leads to more complaining, the spiral runs on and nothing

ever gets done.

So why not go one day without complaining?

Tomorrow, make a vow to stop complaining, and get on with the day. Sure, there will be problems but instead of complaining about them focus on solving the problem or if you can't solve it move on. Just don't complain about it.

Potatoes, Eggs & Coffee Beans

Once upon a time a daughter complained to her father that her life was miserable and that she didn't know how she was going to make it. She was tired of fighting and struggling all the time. It seemed just as one problem was solved, another one soon followed. Her father, a chef, took her to the kitchen. He filled three pots with water and placed each on a high fire. Once the three pots began to boil, he placed potatoes in one pot, eggs in the second pot, and ground coffee beans in the third pot.

He then let them sit and boil, without saying a word to his daughter. The daughter, moaned and impatiently waited, wondering what he was doing. After twenty minutes he turned off the burners. He took the potatoes out of the pot and placed them in a bowl. He pulled the eggs out and placed them in a bowl.

He then ladled the coffee out and placed it in a cup. Turning to her he asked. "Daughter, what do you see?" "Potatoes, eggs, and coffee," she hastily replied. "Look closer," he said, "and touch the potatoes." She did and noted that they were soft. He then asked her to take an egg and break it. After pulling off the shell, she observed the hard-boiled egg. Finally, he asked her to sip the coffee. Its rich aroma brought a smile to her face. "Father, what does this mean?" she asked.

He then explained that the potatoes, the eggs and coffee beans had each faced the same adversity— the boiling water. However, each one reacted differently. The potato went in strong, hard, and unrelenting, but in boiling water, it became soft and weak.

The egg was fragile, with the thin outer shell protecting its liquid interior until it was put in the boiling water. Then the inside of the egg became hard. However, the ground coffee beans were unique. After they were exposed to the boiling water, they changed the water and created something new. "Which are you," he asked his daughter. "When adversity knocks on your door, how do you respond? Are you a potato, an egg, or a coffee bean?"

Moral: In life, things happen around us, things happen to us, but the only thing that truly matters is what happens within us. Which one are you?

SOCIAL SCIENCE IS BORING !

I am here to answer few questions which I generally face when I enter in a social science class.

Why do we need to study social science? Why we are made to study social science when we are supposed to take science or commerce in 12th? Why social science is so boring?

I am answering above questions not because I am co-ordinator of Social science in this school but because once these questions were in my mind when I was a student. Now after so many years I have been able to find the answers.

Why we study Social Science? It is important to study Social Science because they are about what it mean to be human, when we better understand our self, we can better understand how the world works. Social Science is all about learning our own identity, history, culture and

how we relate to other humans on this planet. It provides us insight to identify root causes of societal problems and find more affective solutions.

Why we are made to study social Science when we are supposed to take science or commerce in 10+ 2?

It is equally important to learn evolution of mankind from ancient history to modern history as evolution of homo sapiens from monkeys. All research work and experimentation are done in laboratory but they are tested on human beings or say society. Therefore usage of all research and experiments lies in the hands of people how they would accept it. Therefore it is equally important to study subjects like Psychology, sociology and anthropology, which of these are essentially the study of human behavior.

Why Social Science is so boring? Social Science is all about learning the fundamental concepts of culture, economics and politics. Students find it boring when they are unable to relate these fundamental concepts. It is important that the Social Science class uses active lessons which means "minds on" rather than "hands on" in passive learning An example of this would be a debate or interactive discourse following a lecture in place of a packet of workbook pages or other busy work.

Corruption

Join hands together and plan to end this corruption.
Corruption is spreading like pollution and causing destruction.
Corruption is destroying us, it needs to be destroyed too.
Its our responsibility to remove the corruption.
Corruption is practiced by the people of lose character.
Corruption shows dishonor while honesty honor.
Country without corruption is perfect for its citizens!
Honest people become away from corruption.
Corruption makes the country empty from inside.
Corruption eats country's power and makes it empty.
Just be honest and raise voice against corruption.
Corruption is a hidden robber, robs us all 24 hrs.
Be the hero and fight corruption.
Be the initiator of anti-corruption!
Don't be the part of corruption
if you really want development in the country.
We are against corruption, Are you!
Say loudly, No to corruption.
Be a participant of India against corruption.
Build a corruption free society in your area.
Corruption is a crime; let it destroy before it destroys us.
Clean India, Corruption free India!
Corruption only affects a common man!
Fight corruption if you want a better society!
Don't be part of corruption, be a part of solution.
Shame on fame came through corruption.
Shame on names who corrupt country's fame.
Prevent yourself from corruption!
Corruption is not good for anybody.
Corruption kills a person completely from inside.

Importance of Group Activity in School

"Alone we can do so little, Together we can do so much."

Helen Keller

Group activities help students develop a host of skills that are increasingly important in the professional world. There is, indeed, a great importance of group activity in school. In fact, group activity is like team work. Group activity or team work is a great healer and stress buster. We know it very well that every child has different abilities and capabilities. Activity done in a group enhances interaction and helps developing communicative skills. These skills today are very important for a successful life and career. Group activity develops leadership qualities. It also develops tolerance, fights hesitation and increases self-confidence. If there are any conflicts, these get resolved in group activity. Then group activity has focus and keeps the participants focused on goals. Various faculties like competence, views, actions and abilities are duly recognised both individually and in a group. Most importantly, group activity teaches the participants human values are so important for a sweet life that nothing can replace these. Life is both individualistic as well as social. These values enable us to lead a contented life at social level too as man is basically

a social being. These values get strengthened at school level.

The future of the Society depends on the standard of primary education. Primary education has to be approached most creatively where dedicated academics nurture the tiny tots of our country who will prepare themselves for the challenges of the long run. We should care concerning our young child's education as a result of educational institution and first class learning is that the foundation for formal education, it will boost your child's self-worth, and it will offer your kid the sting they have for long success. Finally, primary education is vital as a result of it will offer our kid the sting during a competitive world. Each parent's wish their kid to be at the top of the category neither behind!

Kite

Mother is flying a kite. Her son is watching her carefully. After some time son says "mom" because of the string the kite is not able to go any further higher.

Hearing this, the mother smiles and breaks the string. The kite goes higher and then shortly after that it comes and falls on the ground. The child becomes miserable. The mother sits next to him and calmly explains, "son, in life we reach a certain level and then we feel that there are certain things that are not letting us grow any further like house, family, friends, culture etc. We feel we want to be free from these strings which we believe are stopping us from going higher, but remember son, that our house, family, friends and culture are the things that will help us stay stable at the high heights. If we try to breakaway from those strings our condition will be similar to the kite."

Role of Family in Inculcating Values

Family is the foundation on which values are built. Moral values like truthfulness, happiness, peace, justice are instilled in children's thoughts, feelings and actions and they function as ideals and standards that govern their actions in their life.

The value system practised in the family becomes automatic to the young family members if they are taught moral values systematically. The family, shapes the child's attitude towards people and society, and helps in mental growth in the child and supports his ambitions and values. Blissful and cheerful atmosphere in the family will develop the love, affection, tolerance, and generosity. A child learns his behaviour by modelling what he sees around him. Family plays a major role in helping a child socialize and has great influence and bearing on the progress of the child. Joint family system, the presence of elders in the family plays the effective role in social and moral development of the children. It also helps young generation of the family to imbibe human values and eradicate their negative mental tendencies when they are among elders. Children identify themselves with their parents, other family elders and adopt them as their personal models for emulation and imitation and hero-worship them. Family is the first social organisation that provides the immediate proximity from which the kid can learn his behaviour.

A family is a unit of parents and the children. Social standards and customs defined by a family provide the emotional and physical basis for a child. Values developed by a family are the foundation for how children learn, grow and function in the world. These beliefs, transmits the way of life a child lives and changes into an individual in a society. These values and morals guides the individual every time in his actions. Children turn out to be a good person because of the value taught and given by his family members Ideas passed down from generation to generation make up a family values. It answers the basic question of how one want to live the family life. Family values enhance the character and turns the children to be good human being. It teaches the individual how to behave and project himself to the next younger generation and the emotional support adds the importance of family values. Customs And Traditions followed and taught by the family leads a disciplined and

organized life. Families values helps the child to stand strong on his views despite others efforts to break through with opposing beliefs. In addition, Beliefs and trusts built around a family helps the children to be responsible and conscientious adults. A child has a strong sense of what is right and wrong and are less likely to become victims of deviant influences. Children who are influenced by strong moral values identify them in others quickly which then produces a new generation with similar beliefs. Thus, family is important in developing the moral values of child. There is a close contact between the parents and children, which determine the personality of child.

Positive Attitude

Positive Attitude leads to success and happiness. It helps you cope more easily with the daily affairs of life and make its easier to avoid worries and negative thinking. Positive Attitude focuses on the bright side of life and expects positive results.

We all want a happy life, and we all know that having a positive attitude feels better than a negative one. With a positive attitude we experience pleasant and happy feeling this bring brightness to the eyes, more energy and happiness. We should remember that there is a positive aspect in everything, in every person, in every situation there is something good most of the time its not all that obvious, we have to look life is a bowl of cherries, some cherries are rotten while others are good, its your job to pick the best and throw out the rotten ones and forget about them. If negative thoughts enters your mind you have to be aware of it, and endeavour to replace it with a constructive one and positive one. Do practice and change yourself.

Prajal Goyal

I scored 95.2% marks in class XII Board Exams from Mittal International School, Kota. Being the topper of the school that year, I was awarded a cash prize of INR 5000 from the principal on the Annual Function Day. I was also one among the top 1% students nationwide in class XII board examination conducted by CBSE, 2013 which made me eligible for the Inspire Award provided by Department of Science and Technology worth INR 4 Lakh under Scholarship for Higher Education (SHE) Scheme. Simultaneously, I also cleared the Joint Entrance Examination (JEE), 2013 and scored an All India Rank of 1766. I secured an All India Rank of 1430 in JEE Mains and managed to score 350 marks in BITS exam. All this was never possible without continuous motivation and support from my teachers. Hard work and dedication to achieve success along with proper guidance from my teachers not only helped me perform well but also provided a head start to my career. To pursue higher education in Engineering, I took admission at the Indian Institute of Technology, Delhi in 2013 and I am currently in my final year of B.Tech program in Civil Engineering. I have displayed strong leadership qualities and drive throughout my college life by achieving exemplary results in extracurricular activities, while simultaneously achieving success in academic pursuits.

A day in school...

MIS is not only a school it is family to me. It is hard to share my experience because those inevitable moments I had can not be expressed in words or action or anything. It brushed, it polished me into what I am today; always made me think out of the box, supported me and forced me to do the right thing at the right moment. All I can do is Thank all my teachers for making me what I am today or where I am today. I Thank MIS for giving me such a wonderful teenhood with wonderful friends who had always been on the hit list of the school *winks*.

Thank You all.

RFID Based Child Security System

In today's world there is always a fear of getting a Child Kidnaped even while going to school or coming back from school. Children are the most precious and lovable assets of parents. Due to this affection they are always worried about the whereabouts of their ward even if the child has gone to the school.

They always want to know whether the child has safely reached the school or when the child has left the school. To address this concern, Mittal International School, Kota has brought a Tech-friendly RFID Device and ID-Card for all students ensuring safety & security of the child. It tracks the movement when a child enters and exits the school and in parallel sends Automated SMS to the parents. This has been made possible through a Hi-tech RFID Card that gets attached along with the student's ID Card. When students enter the school gate, the RFID machine placed at the entry/exit point of the school detects the card and then marks the attendance in the respective class-section and sends SMS to parents "Daddy/Mummy, I am in the school now" with the student's Name/Date/School Name. Similarly, when the school is over in the afternoon, another SMS is sent "Daddy/Mummy My school is over and I will be home soon: with the Student's Name/Date/Time/School Name.
